

Local businesses to get boost with 10X factor

Expert business support is on its way to Beaufort businesses, thanks to a new partnership between proactive local accounting firm Spencers and Australia wide business coaching franchise, 10X.

At a recent seminar presented in conjunction with the Beaufort Community Bank and the Pyrenees Shire, the local 10x Business Coach Lindsay Eaton presented an interactive workshop designed to assist local Business Owners to take that next step to business success.

Lindsay highlighted how we often see where business owners are feeling isolated within their business, and particularly now with the

current economic climate they have even more on their plate, having to deal with dwindling sales, tightening cashflow and reduced profits.

It does not have to be this way, particularly with the many business support programs now available to assist with these challenges.

10X, have a range of programs that really help business with growth strategies and management improvement tools.

Business owners who want further information and receive tailored advice from an expert coach on how to grow their business, can contact Lindsay Eaton, on 5331 2322
