## 10X launched by GM Accounting

Glenis is the Managing Director of Logan's successful and prominent accounting firm GM Accounting. She is most regarded for her proactive approach to business success and community support with stepUP foundation. In fact, Glenis and the team have been so successful they won an international business award at the recent robnixon gala conference in New Zealand. The annual accounting conference was attended by leading firms from across Australia and New Zealand.

Glenis's mantra is simple, "To guarantee success, act as if it were impossible to fail" Through this mantra Glenis has seen many businesses including her own achieve amazing results.

Glenis has also launched a new division, '10X' after demand from clients wanting to impact their 'numbers' before there are reported on. GM Accounting was selected by 10X Limited (the nations leading performance and growth franchise) to bring the highly successful flagship program 10X Coaching Club to local business owners of Logan. GM Accounting is the only firm in Logan to receive such a posthumous accolade from 10X Limited which is a true reflection of the service Glenis and her team provides.

According to Nic Clark, CEO of 10X Limited, Glenis was selected because she has the expertise, resources and commitment necessary to support our vision of positively impacting 12,000 businesses across Australia per year." If you are a business owner looking to improve your business, increase your profits, get more done than you ever have before AND build your business as a far more saleable asset call the team at GM Accounting today on 07 3388 3622 or visit [www.gmaccounting.com.au](http://www.gmaccounting.com.au).
