

Coaching plan for businesses

BUSINESS franchise 10X has partnered with Springwood accounting firm GM Accounting to provide a mentoring service to Logan small businesses.

10X Limited CEO Nic Clark said the partnership was part of the company's vision to influence 12,000 businesses across Australia each year.

"Business owners already rely on their local accountant to help them in areas such as reporting, tax and compliance," he said.

"What they really need is a proactive accountant who can assist them with growth strategies, improving cash flow, increasing profits, asset protection and succession planning."

The two companies will hold a workshop on Thursday, September 18, at Springwood Towers, from 6pm.

Guest speaker will be Dean Marinac.
